

OUR OCEAN IS UNDER THREAT

seabed miners are trying to use fast-track legislation to get away with destruction

Our courts ruled that the Trans-Tasman Resources seabed mining operation would cause material harm to the ocean

That hasn't changed

Now they're using the fast track in an attempt to **bypass**

our voice,
our whānau,
and the law

Your voice, your actions
stopped this dangerous project before.

We can do it again!

kasm
kiwis against seabed mining

act now - join us

Facts about seabed mining:

seabed mining creates huge **sediment plumes** that **smother sea life** in their path

huge amounts of noise is produced, **deafening animals** that rely on sound to wayfind

seabed mining creates dead zones **where life cannot survive**

Your voice should be heard
